***YouTube Reality Creator “Getting Started” playlist*** will teach you the basics of the WD core skill of travel meditation, and introduce you to important introductory locations in the Tree of Life, such as the subway station, HAS, Sandalphon Castle, etc. It also serves as an introduction to the training program covering many of the things you may want to know. We suggest you give this resource a try.

### **Let’s talk about Spiritual Training.**

Training is very exciting here at Wisdomsdoor. As some of you may have noticed the last few years there have been no workshops. During that time, I was training some exceptional people who I now call my Consulars.

They all started as apprentices and moved through intense and persistent Tree of Life and Aethyr work. They are the best of the best in my book. Now I would like to open this training program to others and have my Consulars and myself train you.

WD Consulars are exceptional beings. They possess almost magical powers to help shape and change their world. They dedicate themselves to helping others, the planet, and to banish the dark energy from causing strife and harm. Below are some of the abilities and perks.

- Ability to heal themselves or others.
- Advanced protection like force fields, pseudo invisibility, and the Consular mind Trick.

- Traveling through time and space using advanced travel techniques like: Travel Meditation, Lucid Dream manipulation, Remote Viewing, and Out of Body travel. *Please note that not everyone will attain all these abilities, but one or more of them you will be able to develop.*
- Access to special content devoted to Spiritual training, including some blueprints to build crystal devices for protection and healing.
- More perks as I think of them...

### **How long will this Training take?**

You will determine the overall progress and speed that you go through the course materials. The harder you work the faster you get there. With that said, course materials can only be worked at in a reasonable time frame. With the best of effort it will take about a year. With the help of the Consulars, your progress through these training places is accelerated, normally this process could take years to complete the course material, but with the help of others it goes quickly, if you are willing to put in the effort.

### **Course Material:**

Consular training involves learning the basics of reality creating and visiting the many Tree of Life locations using “Travel Meditation.” OBE or lucid dreaming can be used as well. However you will be taught travel meditation regardless, as it is a big part of the process.

- “Reality Creator Tree of Life Pathworking” parts 1 to 3: Available in the future on Amazon.

### **What happens when you join:**

New apprentices will be assigned a “Welcome Buddy.” This may be a Consular or an advanced apprentice that has been with the training program for awhile. The basic course material to get started should be reviewed. See the end of this document for the links. Your “Welcome Buddy” will help you with these things and help to explain them. After that you can start participating in the daily activities, the sharing of travel meditation experiences, and the participation in daily discussions and learning.

### **Promotion from Apprentice to Consular will involve:**

- Completion of the above TOL and Aethyr course material.
- Participation in the “Welcome Buddy” program to get new apprentice a sense of belonging and that they get the beginning materials they need to get started.
- The reading of “Reality Creator I” and “Reality Creator II” books, available on Amazon. *Please note that some countries do not allow access to RC material. If this is the case contact me.*
- Mandatory one year as an Apprentice and the consistent engagement and participation of the work presented on the Wisdomsdoor Discord server. We are talking daily to semi weekly work. You must demonstrate that you want to become a Consular, have the inner stuff of what it takes to apply yourself to reach goals.
- Approval from the Council to become a Consular.

**Final Thoughts:**

Keep in mind what makes Jedi the Jedi is not the cool abilities, but rather their dedication to helping others and the planet. What determines your success is your own hard work and determination. I like to think the spiritual rewards alone are worth the investment.

So do you have what it takes to become a Jedi? If you think so give it a try. Go to my Patreon page and sign up for one of the plans with Discord access/Jedi training. (link below)
